

## Sliding Tie Downs

ProRac Sliding Tie Downs provide additional tie down points on the crossbar or load bars. ProRac's Pro-File crossbars and Work Rack load bars feature our integrated T-SLOT design, making installation of the sliding tie downs quick and easy. This mounting method offers great flexibility to accommodate various load sizes. (Part Number: FGWR010-1)

### Engineered Advantages:

- Kit includes four sliding tie down points to secure load
- Zinc plated forged steel construction for strong corrosion resistant tie down points
